Inborn talent hub

Mission= our mission is to provide counselling services to children, senior citizens, adults ,couples ,and corporate's. People from different back ground.

Vision = our vision is to generate accurate report for the client and help them build their future and know his/her inborn talent.

Values= To provide non- judgmental report. Provide confidential and safe space for the client to speak and hear.

Goals= Our goal is to make every individual live the life he dreamt of and let him know his inborn talent and how to best make use of it.

What is **GIFT**?

Genius identification through fingerprint technique.

D. M. I. T. (Dermatoglyphics Multiple Intelligence Test) will reveal following information about individual. DMIT technique has been developed by scientists and research experts from world renowned universities and it is based on knowledge from

Genetics, Embryology, Dermatoglyphics, Psychology and Neuroscience. Dermatoglyphics Multiple Intelligence Test (DMIT) is a scientific term for the analysis of fingerprint. It is a method to discover human brain potentials (8 multiple intelligences), strength-weakness, innate character, learning style, working style and so forth through the professional fingerprint analysis. Our R&D Department's research and study on dermatoglyphic which is based on genetics and the connection between dermatoglyphic and human brain. We read one's brain information, understand their natural talent and do analysis of Multiple Intelligence by dermatoglyphic method. Dermatoglyphics Multiple Intelligence Analysis can be applied for children and adult.

- DMIT helps parents to understand their children better through exploring their child's hidden talents and understanding their Learning pattern.
- DMIT helps individuals to explore the hidden inborn intelligence and their style of learning. This further helps in guiding the individuals to progress through life (right career path).
- DMIT helps Corporates in recruitment and efficient communication.

- DMIT helps Couples to improve the relationship and develop understanding by revealing inborn intelligences.
- DMIT helps business partners in planning to achieve future goals.

We are committed to create awareness & educate masses about the benefits and need of DMIT. We feel that irrespective of race, faith or belief every individual across the globe deserves to identify their intelligences.

8 Multiple Intelligences

The theory of Multiple Intelligences was developed in 1983 by **Dr. Howard Gardner**, professor of education at Harvard University. It suggests that the traditional notion of intelligence, based on I.Q. testing, is far too limited.

This theory has emerged from recent cognitive research and “documents the extent to which students possess different kinds of minds and therefore learn, remember, perform, and understand in different ways,” according to Gardner.

- Visual-Spatial Intelligence
- Verbal Linguistic Intelligence
- Intrapersonal Intelligence

- Logical Mathematical Intelligence
- Naturalistic Intelligence
- Inter Personal Intelligence
- Bodily Kinesthetic Intelligence
- Musical Rhythmic Intelligence

Know your personality understand your strengths and weakness' your opportunities and threats.
